- Implementing a user role management module.
- Implementing an authentication module with JWT.
- Implementing a parking management system based on QR-codes.

Angular11 Node JS/Express JS MongoDB

EDUCATION

Software Engineering Degree

National Institute of Applied Science and Technology

📅 2018 – Present

Courses:

OOP Design patterns Databases Web development
Complexity and Algorithms Software testing Security
Big Data Machine Learning

SKILLS

Languages and Tools:

JavaScript/TypeScript Angular2+ NestJS
Node JS/Express JS MySQL MongoDB
Git/GitHub Docker Linux AWS
Agile Methodologies Machine Learning
Python (NumPy, Pandas, Scikit-learn, Keras)

Soft skills:

Team Work Time Management
Problem Solving

CERTIFICATES

Scrum Foundation Professional Certificate SFPC

CERTIPROF

📅 December 2020

PERSONAL PROJECTS

WeConnect

📅 2021

Developing a co-working space management platform. This application involves the booking, review and the advertisement of events.

Angular11 NestJS MongoDB

LANGUAGES

Arabic : Native
French : Fluent
English : Fluent

VOLUNTEERING

Google Workshop Manager

Android Club INSAT

📅 2021 – Present

Member

INSAT Junior Enterprise

📅 2020 – 2021

Member

Association of Computer Science and Mathematics (ACM)

📅 2019 – 2021
